Marked out of 8.00

Complete the code such that it validates the inputs on form submit as follows:

1. The name can not be empty and must contain only alphabets
2. The password is at least 8 characters with capital, lowercase and number

If the above restrictions are satisfied, the user will be redirected to the next page, otherwise, the function returns false and an error alert message will be displayed.

```
<body>
<[  script  ]>
    [  function  ] validate_inputs(){
        var name=[            ].[            ]("
        [        ").[            ];
        var password=[            ].[            ]("
        [        ").[            ];
        if ([  name  ]==""){
            [  alert  ]("Name can't be blank");
            [            ][            ];
        }else if(name.match(/[  /^(?=.{8})(?=.*?[a-z])(?=.*?[A-Z])/  ]/[  g  ])){
            [  alert  ]("Name must contain only alphabets");
            [            ][            ];
        } else if (password.match([            ])==null){
            [  alert  ]("password must be at least 8 characters with capital, lowercase and number");
            [            ][            ];
        }
    }
</script>
<form [            ]="next.php" [            ]="return
[        ;" >
    Name: <input type="text" id="uname"><br/>
    Password: <input type="password" id="upassword"><br/>
    <input type="submit" value="Submit">
</form>
```

</body>
